

# Jump Right In

The Southern wind sings again an island lullaby

## Verse 1

Baby powder beach under my feet has got me rolling  
And the breeze through crackling leaves like a daytime campfire burning  
And the ship is off to sea  
And the wake it is a churning  
As the Southern wind sings again an island lullaby

## Chorus

You can jump right in  
Let the music pull you in  
You can jump right in  
Oh and lose yourself again  
As the Southern wind sings again a island lullaby

## Verse 2

There's a place the locals go and no one knows where to find it  
And the river starts to flow inside the clouds of Misty Mountains  
The water from this stone below becomes a blue-green fountain  
As the Southern wind sings again an island lullaby

## Repeat Chorus

La la la la la la, ooh  
La la la  
La la la (x2)

## Middle 8

You can find me where the music meets the ocean  
If you get the notion  
Stop on by and play a while  
Simple tune to get your love light glowing  
Keep your heart wide open  
Disappear just like the tide  
Let it roll on by

## Repeat Chorus

As the Southern wind sings again an island lullaby
